11. Bulk email and templates
12. Gallery, coaching, live boards, AGM and FAQ
13. Contact enquiries and absences
14. Reports and exports
15. PWA/mobile app support
16. Routine operating procedures

1. Who Should Use This Guide

This guide explains how Admin and Super Admin users operate the Auckland Knights Chess Club web application. It is intended for club owners, trusted committee members, tournament managers, communications volunteers and support users.

Public club members do not need admin login. Public membership registration, calendar event enrolment, general tournament registration, contact forms and absence forms are separate from admin access.

2. Roles and Access Model

Role	Main access
super_admin	Full access including user roles, settings, members, payments/status edits, content and deletion controls.
admin	Manage most club content, members, tournaments, enquiries, communications and reports, but not highest-level Super Admin controls.
news_editor	Manage website news only.
tournament_manager	Manage tournaments, calendar items, registrations, results and absences.
gallery_manager	Manage photo gallery.
faq_manager	Manage FAQ content.
coaching_manager	Manage coaches and weekly coaching topics.
social_media_manager	Manage social post drafts and share assistant.
member	No admin rights by default.

Recommended principle: give each volunteer the minimum access required for their task.

3. Admin Login and Dashboard

Admin users log in from the hidden admin URL:

```
/club-admin/login
```

After login, the dashboard displays key operational summaries, such as members, tournament registrations, payments, absences and pending actions. The admin menu uses a vertical sidebar and may show different items depending on role.

If a user cannot access the admin area, a Super Admin should check the user profile role and active status.

4. Club Settings and Publishing

Club Settings controls core public website information and system behaviour. Only published settings should be used by public pages.

Setting area	Purpose
Club details	Club name, public contact details and address.
Senior and Junior Club Captain	Names, emails and phone details used on public pages and absence/contact workflows.

Setting area	Purpose
Social media links	Facebook, Instagram, YouTube, X, Lichess, LinkedIn and other public links.
Email provider	Choose Resend API, SMTP/Brevo/Custom SMTP or Disabled.
Membership ID prefix	Up to four letters, e.g. AKCC, used for auto-generated membership IDs.
Calendar title/description	Public title such as 2026 Calendar and the calendar introduction text.

Typical action buttons:

- Save Draft - saves changes without publishing them to the public website.
- Publish Settings - makes the settings live.
- Unpublish - removes settings from public use if needed.

5. Users and Role Management

Super Admins can create/edit admin users and assign roles. Admin login accounts are separate from public club memberships.

- Open /club-admin/users.
- Add or edit user details such as first name, last name, email and role.
- Activate or deactivate access as needed.
- Use social_media_manager for communications volunteers who only manage social drafts.
- Use tournament_manager for tournament volunteers.

Do not create public member accounts as admin users unless they truly need back-office access.

6. Membership Management

Public members register from the website membership form. Payment is handled by Stripe. After successful payment, the system generates a Membership ID.

Item	Value / Guidance
Membership ID format	PREFIX + 5 digit sequence, e.g. AKCC01001.
Prefix control	Configured by Admin/Super Admin, maximum four letters.
Membership ID edit rule	Read-only after generation. Super Admin cannot manually change it.
Validity	Full-year or half-year depending on membership option. Renewal normally applies each January.
Manual status control	Super Admin can set Active/Expired/Pending/Inactive and Paid/Pending/Manual/Bank Transfer Paid/Waived/Failed/Refunded.

Super Admin member maintenance:

- Edit first name, last name, email, phone and address.
- Update membership type and validity dates.
- Update NZCF/FIDE IDs and ratings.
- Set payment status for manual bank transfer/cash payments.

- Deactivate or delete/archived records according to club policy.
- Do not edit Membership ID; it is an audit identifier.

7. Calendar and Club Event Enrolment

The Calendar page shows a public yearly calendar such as 2026 Calendar. Admin can configure the title, description and events. Calendar items may link to configured tournaments.

Club Calendar Events are included in membership and do not require separate payment, but players must still enrol online.

Club Calendar Event enrolment flow:

- User opens the event/tournament detail page.
- User enters Membership ID or registered email.
- System finds active paid membership and auto-populates member details.
- User confirms enrolment.
- Admin can view enrolled members for the event/tournament.

Calendar items should use date-only fields. Friendly date text can be entered in Date Display Text, for example Mar 23 - May 18 or May 25 and June 8.

8. General/Open Tournaments and Payments

General/Open tournaments can appear in Calendar, Tournaments and Results but require separate payment, even for members. Payment must complete before registration becomes confirmed.

Admin field	Guidance
Tournament Type	Choose Club Calendar Event or General/Open Tournament.
Tournament System	Swiss-system, Round-Robin, Knockout, Scheveningen, Arena, Team Swiss, Match, Other.
Rating Format	Classical, Rapid, Blitz, Lightning, Bullet, Junior Event, Other.
Time Control	Choose from dropdown such as 90+30, 60+30, 25+5, 15+5, 5+3, 3+2 or Custom.
Rating Type	FIDE Rated, NZCF Rated, FIDE & NZCF Rated, Non-rated, Club Rated.
Fees	Admin enters dollars such as \$10 or \$15. The system converts to cents internally for Stripe.
Prize fund	Use + Add Prize to add variable prize rows by position/category.

A general/open tournament registration must remain Pending Payment until Stripe confirms checkout.session.completed via webhook.

9. Results Management

When a tournament is marked Completed or Archived, it should move from the Tournaments page to the Results page. Results may include winner photo, top three names, Vega link, Lichess link, PGN link, prize details and summary.

- If a winner/result image is uploaded, it displays neatly.
- If no image is uploaded, no knight placeholder should appear.
- Completed tournaments should not remain in the upcoming/current tournaments list.

10. News and Social Share Assistant

News and Social Media Posts are separate modules but can create drafts for each other.

Action	Result
Publish news	Publishes to the website news page. Optionally creates a social post draft.
Create social post	Creates a share-ready social post draft. Optionally publishes as website news.
Share assistant	Provides caption, link, copy buttons and open-platform buttons. It does not auto-post using platform APIs.
Mark as Posted	Admin can update the social draft status after posting manually.

Supported platforms include Facebook, Instagram, X, YouTube, LinkedIn and other configured links.

11. Bulk Email and Templates

Bulk Email allows Admin/Super Admin to choose a template, select recipients, preview personalized content and send via the configured email provider.

- Configure Email Provider in Club Settings: Resend API, SMTP/Brevo/Custom SMTP or Disabled.
- Use Email Diagnostics before sending bulk emails.
- Choose recipient group: all active, all paid, expired, expiring soon or selected members.
- For selected members, tick the checkboxes in the member list.
- Preview recipient count and personalized message before sending.
- Use Send Test Email before sending to the full list.

Template placeholders:

```

{{first_name}}
{{last_name}}
{{full_name}}
{{email}}
{{membership_id}}
{{membership_type}}
{{membership_start_date}}
{{membership_end_date}}
{{renewal_link}}
{{club_name}}

```

12. Gallery, Coaching, Live Boards, AGM and FAQ

Module	Admin actions
Photo Gallery	Upload, crop/preview if available, publish/unpublish and remove images. Public page shows published items only.

Module	Admin actions
Coaching	Add coaches, photos, online links and weekly topics. Publish coaches to show on public Coaching page.
Live Boards	Add Lichess/Vega/live board links and keep current/recent/history entries.
AGM & Notices	Publish AGM meetings, decisions and elected team roles.
F.A.Q.	Add, edit, publish/unpublish and order common questions.

13. Contact Enquiries and Absences

The public Contact page includes an enquiry form. Admin can view enquiries, filter by status and mark each one In Progress, Responded, Closed or Reopened.

The public Absence form allows players/parents to report absence from a tournament round without login. It saves the absence record and sends email if email provider is configured.

Record type	Admin actions
Enquiry	View, filter, update status and follow up.
Absence	Filter by tournament/round, mark reviewed/noted and export if needed.

14. Reports and Exports

Reports are displayed inside the relevant admin pages instead of a separate Reports menu. Admin can select filters, choose columns, preview data and export CSV/PDF.

Page	Report capability
Members	Filter members, choose columns, preview report, export CSV/PDF.
Tournament Registrations	Filter by tournament/status/category, preview, export CSV/PDF.
Absences	Filter by tournament/round/date/status, preview, export CSV/PDF.

Embedded PDF preview should be hidden by default and only shown when the user clicks Show PDF Preview.

15. PWA/Mobile App Support

The website can be installed like a mobile app through the browser. Users can open /install-app to see instructions.

Device/browser	Install action
iPhone Safari	Open website > Share > Add to Home Screen.
iPhone Chrome	Open website > Share > Add to Home Screen.
Android Chrome	Open website > menu > Install app or Add to Home screen.
Desktop Chrome/Edge	Use the install icon or browser app install menu if shown.

16. Routine Operating Procedures

Weekly club update:

- Login as Admin.
- Create/update News.
- Upload image only if useful.
- Publish news.
- Create social media draft if required.
- Copy caption and post manually to selected platform.

Before a tournament:

- Create tournament/calendar item.
- Set type: Club Calendar Event or General/Open Tournament.
- Configure rating type, format, time control, rounds, venue and date display text.
- For open tournaments, configure categories, fees and prize fund.
- Publish and test registration/enrolment.

After a tournament:

- Mark tournament Completed.
- Add winner/top 3 details.
- Add Vega/Lichess/PGN links.
- Upload winner photo if available.
- Confirm it appears on Results, not Tournaments.
- Optionally create social media draft.

Monthly or seasonal member communications:

- Update email templates.
- Select active/expired/expiring members or selected members.
- Send test email.
- Preview recipients.
- Send bulk email.
- Record any failures.
